INESC TEC supports costs with registration, enrolment or tuition fees, during the grant duration, under the terms established in the internal document: "[Payment of Tuition fees to grant holders](#)".

The grant holder will benefit from health insurance, supported by INESC TEC.

2. OBJECTIVES:

Study of the role of hospitals in the processes of technology transfer and innovation in medical technology. Identification of best practices in terms of knowledge management and ecosystem stimulation in the health area. The valuation of Intellectual Property generated during the R&D carried out at INESC TEC is a basic activity in the institution. In recent years, the institution has consolidated its position as an innovative agent, having increasingly had the opportunity to be part of prestigious international networks such as the TTO Circle and the EEN or the EIT, among others. Innovating and maximizing the social impact of research is part of the institution's DNA.

3. BRIEF PRESENTATION OF THE WORK PROGRAMME AND TRAINING:

Evolution analysis and identification of determinants that help explain the international success stories, contrasting with the national reality. Information will be collected through a bibliographic review and interviews with key opinion leaders in the area. The results obtained will be analyzed for the elaboration of a framework designed to maximize the chances of success in valuing knowledge and adopting technology in the hospital context, with hospitals as the center of analysis.

Hands-on training is planned by the SAL team in all the tasks mentioned above, as well as support and encouragement for training in international reference entities in the area of Intellectual Property and Technology Transfer such as WIPO, EPO and IPR Helpdesk.

4. REQUIRED PROFILE:

Admission requirements:

Degree in Bioengineering or similar.

The awarding of the fellowship is dependent on the applicants' enrolment in study cycle or non-award courses of Higher Education Institutions.

Preference factors:

Quick ability to learn about new topics; Pro-active attitude; Excellent interpersonal skills; Participation in entrepreneurship and/or technological acceleration programs; Organization and/or participation in professional training and networking events; Training in Intellectual Property.

Minimum requirements:

Master's student in the field of Bioengineering or Biomedical Engineering.

5. EVALUATION OF APPLICATIONS AND SELECTION PROCESS:

Selection criteria and corresponding valuation: the first phase comprises the Academic Evaluation (AC), based on the criteria referred to in Article 12 of the Regulations for Grants of INESC TEC, while the second phase comprehends the Individual Interview (EI). All factors are evaluated on a scale of 0 to 100, taking into account the applicants' merit, suitability and conformity with the preference factors.

The weight of the AC factors are as follows: Academic Qualifications (FA, 40%), Scientific Publications (PC, 0%), Experience (EX, 20%) and Motivation Letter (CM, 40%).

Candidates who score less than 50 points in the AC average will be considered excluded on absolute merit. The top five candidates approved on absolute merit will be qualified for the individual interview. The Final Grade (CF) is obtained by the weighted average of AC (20%) and EI (80%).

The Selection Jury is composed of the following members:

President of the Jury: Daniel Marques Vasconcelos

Full member: Susana Cristina Rodrigues
