

## CALL FOR GRANT APPLICATIONS (AE2025-0027)

INESC TEC is now accepting grant applications to award 1 Research Grant (BI) within the scope of the AIMaCoV funded by National Funds through FCT - Portuguese Foundation for Science and Technology, I.P., project reference 2023.14899.PEX.

### 1. GRANT DESCRIPTION

**Type of grant:** Research Grant (BI)

**General scientific area:** ENGINEERING

**Scientific subarea:** Electrical engineering

**Area of Work:** Engineering

**Grant duration:** 12 months, starting on 2025-03-10, with the possibility of being renewed until the end of the project.

**Scientific advisor:** Nuno Miguel Paulino

**Workplace:** INESC TEC, Porto, Portugal

**Maintenance stipend:** € 1259,64, [according to the table of monthly maintenance stipend for FCT grants](#), paid via bank transfer. Grant holders may be awarded potential supplements, according to a quarterly evaluation process (Articles 19, 21 and 22 of the [Regulations for Grants of INESC TEC](#) and Annex II), up to a maximum limit of 50% of the monthly maintenance stipend.

INESC TEC supports costs with registration, enrolment or tuition fees, during the grant duration, under the terms established in the internal document: "[Payment of Tuition fees to grant holders](#)".

The grant holder will benefit from health insurance, supported by INESC TEC.

### 2. OBJECTIVES:

- Implement the mapping of ONNX models to Coarse Grained Reconfigurable Array (CGRA) type hardware accelerators, using ML/AI methods (e.g. graph neural networks)
- Run the mapped workloads on a RISC-V + CGRA system and evaluate performance vs. state of the art
- Writing co-authored scientific articles to disseminate the results obtained.

### 3. BRIEF PRESENTATION OF THE WORK PROGRAMME AND TRAINING:

- Study the state of the art in mapping approaches for CGRA via AI methods and conventional methods.
- Familiarizing with existing methods in the working group for converting ONNX models to dataflow graphs (DFGs), compiling via MLIR, and co-simulating RISC-V + CGRA.
- Determine the representations for the DFG and CGRA architectural specifications most suitable for use in machine learning methods.
- Design and implement a machine learning-based method for mapping DFGs to the target CGRA architecture.
- Generation of the configurations resulting from this mapping, and the programs for execution (via simulation) on the final RISC-V + CGRA system.
- Collaboration in writing scientific articles to disseminate the results.

#### 4. REQUIRED PROFILE:

##### Admission requirements:

Master's degree in electrical engineering, computer science, or related field.

The awarding of the fellowship is dependent on the applicants' enrolment in study cycle or non-award courses of Higher Education Institutions.

##### Preference factors:

- RISC-V and/or MLIR experience
- familiarity with ONNX and/or ML / AI frameworks
- fluent in English (written and spoken)

##### Minimum requirements:

- experience in hardware design or heterogeneous systems
- fluent in Portuguese and English (written and spoken)

#### 5. EVALUATION OF APPLICATIONS AND SELECTION PROCESS:

**Selection criteria and corresponding valuation:** the first phase comprises the Academic Evaluation (AC), based on the criteria referred to in Article 12 of the [Regulations for Grants of INESC TEC](#), while the second phase comprehends the Individual Interview (EI). All factors are evaluated on a scale of 0 to 100, taking into account the applicants' merit, suitability and conformity with the preference factors.

The weight of the AC factors are as follows: Academic Qualifications (FA, 40%), Scientific Publications (PC, 10%), Experience (EX, 40%) and Motivation Letter (CM, 10%).

Candidates who score less than 50 points in the AC average will be considered excluded on absolute merit. The top five candidates approved on absolute merit will be qualified for the individual interview. The Final Grade (CF) is obtained by the weighted average of AC (70%) and EI (30%).

##### DISABILITY INCENTIVE

Candidates who present a degree of disability equal to or greater than 90% will benefit from an incentive (20) in the score of the CV Assessment.

Candidates who present a degree of disability equal to or greater than 60% and less than 90% will also benefit from an incentive (10) in the score of the CV Assessment.

Said score may, in these cases, exceed 100 points.

Candidates must demonstrate the degree of disability during the application, namely through the submission of the Multi-Purpose Medical Certificate of Disability, issued in accordance with Decree-Law no. 202/96, of October 23 - currently in effect.

Candidates must declare, in the application form, the type of disability used throughout the selection process, in order to proceed with the required adaptations.

##### The Selection Jury is composed of the following members:

President of the Jury: Nuno Miguel Paulino

Full member: João Bispo

Full member: João Canas Ferreira

Substitute member: Luís Manuel Pessoa

**Release of results and prior hearing:** the results of the selection process, as well as the terms and procedures for prior hearing, will be released to the applicants by email, under the terms referred to in Article 13 of the Regulations for Studentships and Fellowships of INESC TEC.

#### 6. FORMALISATION OF APPLICATIONS:

##### Application Documents:

1. Motivation letter;
2. Curriculum Vitae (must include the list of previous fellowships, their type, beginning and end dates, funding entities and host institutions);
3. Certificate or diploma degree;

4. Proof of enrollment in a degree awarding study cycle or in a non degree awarding Higher Education program.
  - The proof of enrollment may be presented just during the grant hiring stage.
5. Signed declaration stating the infringement of the grant holder's duties (article 14, no. 4)
6. Documental evidence to support the country of residence, residence permit or other legally equivalent document, in cases where the applicant is a foreigner or non-resident in Portugal - valid until the beginning of the grant.
7. Other supporting documents relevant to the final assessment.

Failure to deliver the required documents within the 90-day period after the date of the notice of the conditional awarding of the grant implies its cancellation.

**Application period:** From 2025-01-30 to 2025-02-12

**Submission of applications:** the application will be formalised by submitting the form available in the *Work With Us* section of INESC TEC website.

## 7. BINDING LEGISLATION AND REGULATION

The hiring process shall comply with the current legislation regarding the Research Grant Holder Statute, approved by Law no. 40/2004 of August 18, in its current wording, as well as by the [Regulations for Grants of INESC TEC](#) and for [FCT Grants Regulation in force](#).

For more information, please check the [Regulations for Grants of INESC TEC](#) and relevant annexes at [www.inesctec.pt/bolsas](http://www.inesctec.pt/bolsas)
