

## CALL FOR GRANT APPLICATIONS (AE2025-0073)

INESC TEC is now accepting grant applications to award 1 Research Grant (BI) within the scope of the H2DRIVEN funded by IAPMEI with reference 50 Co-financed by Component 5 - Capitalization and Business Innovation, integrated in the Resilience Dimension of the Recovery and Resilience Plan within the scope of the Recovery and Resilience Mechanism (MRR) of the European Union (EU), framed in the Next Generation EU, for the period 2021 - 2026.

### 1. GRANT DESCRIPTION

**Type of grant:** Research Grant (BI)

**General scientific area:** ENGINEERING

**Scientific subarea:** Electrical engineering

**Area of Work:** Electrical and Computer Engineering - Industrial Electronics

**Grant duration:** 6 months 11 days, starting on 2025-03-20, with the possibility of being renewed until the end of the project.

**Scientific advisor:** Rui Esteves Araujo

**Workplace:** INESC TEC, Porto, Portugal

**Maintenance stipend:** € 990,98, [according to the table of monthly maintenance stipend for FCT grants](#), paid via bank transfer. Grant holders may be awarded potential supplements, according to a quarterly evaluation process (Articles 19, 21 and 22 of the [Regulations for Grants of INESC TEC](#) and Annex II), up to a maximum limit of 50% of the monthly maintenance stipend.

INESC TEC supports costs with registration, enrolment or tuition fees, during the grant duration, under the terms established in the internal document: "[Payment of Tuition fees to grant holders](#)".

The grant holder will benefit from health insurance, supported by INESC TEC.

### 2. OBJECTIVES:

- learn more about energy conversion systems designed to feed electrolyzers;
- identify and compare passive and active AC/DC rectifier solutions for industrial electrolyzers;
- study and evaluate the harmonic pollution generated by the pilot electrolyzer's power supply system;
- create recommendations for reducing the injection of harmonics in the industrial power grid;
- support the development of the software for the digital controller that controls the power conversion chain that powered the electrolyzer.

### 3. BRIEF PRESENTATION OF THE WORK PROGRAMME AND TRAINING:

- collaborate in the study and preparation of the report on comparative studies of active AC/DC rectifier solutions;
- participate in the identification of the power architecture used in the green hydrogen production pilot;
- study of harmonic pollution assessment and participation in field work to collect measurements;
- collaborate in writing the report dedicated to assessing the harmonic pollution generated by the pilot electrolyzer's power supply system;
- prepare and collaborate in producing recommendations for mitigating harmonics injected into the industrial power grid.
- Write the grant activity report.

#### 4. REQUIRED PROFILE:

##### Admission requirements:

The awarding of the fellowship is dependent on the applicants' enrolment in study cycle or non-award courses of Higher Education Institutions.

##### Preference factors:

- Past experience (or academic training) in power control and energy conversion systems;
- Knowledge of Matlab/Simulink numerical simulation tools;
- Knowledge of programming in Python and MATLAB Script;
- Knowledge of programming for microprocessor systems;
- Knowledge of hardware for embedded systems.

##### Minimum requirements:

- Knowledge of power electronic systems, in particular AC/DC power conversion systems;
- Knowledge in embedded systems (ex. arduino, raspberry pi, etc.);

#### 5. EVALUATION OF APPLICATIONS AND SELECTION PROCESS:

**Selection criteria and corresponding valuation:** the first phase comprises the Academic Evaluation (AC), based on the criteria referred to in Article 12 of the [Regulations for Grants of INESC TEC](#), while the second phase comprehends the Individual Interview (EI). All factors are evaluated on a scale of 0 to 100, taking into account the applicants' merit, suitability and conformity with the preference factors.

The weight of the AC factors are as follows: Academic Qualifications (FA, 50%), Scientific Publications (PC, 20%), Experience (EX, 20%) and Motivation Letter (CM, 10%).

Candidates who score less than 50 points in the AC average will be considered excluded on absolute merit. The top five candidates approved on absolute merit will be qualified for the individual interview. The Final Grade (CF) is obtained by the weighted average of AC (80%) and EI (20%).

##### DISABILITY INCENTIVE

Candidates who present a degree of disability equal to or greater than 90% will benefit from an incentive (20) in the score of the CV Assessment.

Candidates who present a degree of disability equal to or greater than 60% and less than 90% will also benefit from an incentive (10) in the score of the CV Assessment.

Said score may, in these cases, exceed 100 points.

Candidates must demonstrate the degree of disability during the application, namely through the submission of the Multi-Purpose Medical Certificate of Disability, issued in accordance with Decree-Law no. 202/96, of October 23 - currently in effect.

Candidates must declare, in the application form, the type of disability used throughout the selection process, in order to proceed with the required adaptations.

##### The Selection Jury is composed of the following members:

- President of the Jury: Rui Esteves Araujo
- Full member: Justino Miguel Rodrigues
- Full member: Ricardo Jorge Bessa
- Substitute member: Clara Sofia Gouveia

**Release of results and prior hearing:** the results of the selection process, as well as the terms and procedures for prior hearing, will be released to the applicants by email, under the terms referred to in Article 13 of the Regulations for Studentships and Fellowships of INESC TEC.

#### 6. FORMALISATION OF APPLICATIONS:

##### Application Documents:

1. Motivation letter;
2. Curriculum Vitae (must include the list of previous fellowships, their type, beginning and end dates, funding entities and host institutions);
3. Certificate or diploma degree;
4. Proof of enrollment in a degree awarding study cycle or in a non degree awarding Higher Education program.
  - The proof of enrollment may be presented just during the grant hiring stage.
5. Signed declaration stating the infringement of the grant holder's duties (article 14, no. 4)
6. Documental evidence to support the country of residence, residence permit or other legally equivalent document, in cases where the applicant is a foreigner or non-resident in Portugal - valid until the beginning of the grant.
7. Other supporting documents relevant to the final assessment.

Failure to deliver the required documents within the 90-day period after the date of the notice of the conditional awarding of the grant implies its cancellation.

**Application period:** From 2025-02-13 to 2025-03-03

**Submission of applications:** the application will be formalised by submitting the form available in the *Work With Us* section of INESC TEC website.

## 7. BINDING LEGISLATION AND REGULATION

The hiring process shall comply with the current legislation regarding the Research Grant Holder Statute, approved by Law no. 40/2004 of August 18, in its current wording, as well as by the [Regulations for Grants of INESC TEC](#) and for [FCT Grants Regulation in force](#).

For more information, please check the [Regulations for Grants of INESC TEC](#) and relevant annexes at [www.inesctec.pt/bolsas](http://www.inesctec.pt/bolsas)
